

**Excellent Laxative
For Elderly People**

As we pass the prime of life the various organs of the body have a tendency to weaken, especially the bowels. Regularity in this important function is so essential to good health that old folks should be very careful to avoid constipation. A congestion of stomach waste in the bowels occasions dizziness, headache, drowsiness after eating, biliousness, belching, bloating, etc., and should be corrected immediately; it is the direct cause of much serious disease.

The most effective remedy for constipation is a combination of simple laxative herbs with pepsin sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. It costs only fifty cents a bottle, is mild in its action, does not gripe or strain, and brings relief quickly in an easy, natural manner. Get a bottle of it from your druggist and keep it in the house; it is the ideal family remedy. A trial bottle can be obtained free of charge by writing to Dr. W. B. Caldwell, 456 Washington St., Monticello, Illinois.

Drops Many Potentially Insane Soldiers

Now

MODERN WAR
TOO WEARING

Only a Man Without a Blemish Can Survive

Washington, Oct. 26.—From 1 1/2 to five per cent of American troops thus far examined have been discharged because war service abroad probably would drive them insane.

Two hundred psychiatrists and neurological specialists are carefully examining every American soldier for signs of any mental disease which would drive him insane in action but which ordinary medical examiners would overlook.

Among British troops, where the forehanded weeding out was not done, Major Bailey declared one-seventh of all discharges are due to mental or nervous disorders.

The diseases for which these sanity specialists look include mental defects, epilepsy, psychopathic personality, beginning or potential insanity and diseased conditions of the central nervous system. Many of these borderland cases, Major Bailey said, were discovered just before the men were to have sailed for France.

"By such precautionary methods," he

**IDAHO WOMAN
MADE WELL**

Lydia E. Pinkham's Vegetable Compound Did the Work.
Nothing like it.

Aberdeen, Idaho.—"Last year I suffered from a weakness with pains in my side and back. A friend asked me to try Lydia E. Pinkham's Vegetable Compound and I did so. After taking one bottle I felt very much better. I have now taken three bottles and feel like a different woman. Lydia E. Pinkham's Vegetable Compound is the best medicine I have ever taken and I can recommend it to all suffering women."—Mrs. PERCY PRESTIDGE, Aberdeen, Idaho.

Women who suffer from those distressing ills peculiar to their sex should be convinced by the many genuine and truthful testimonials we are constantly publishing in the newspapers of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health. To know whether Lydia E. Pinkham's Vegetable Compound will help you, try it! For advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

said, "the army is now developing men of the highest professional training, who after the war will go back to their civil employment far more competent than when they left them."

General Gorgas was led to order these examinations by the fact that statistics showed three out of every 1,000 soldiers go insane at home in peace time, six to seven of every 1,000 in war service at home and an undetermined though larger number among troops serving in foreign lands.

German insanity in the Boxer campaign, Major Bailey said, reached fifty men per 1,000. There were, he added, more than 1,700 cases of insanity among the Japanese troops at the siege of Port Arthur.

"There is a large class of people," he said, "who will break under the strain, anxiety and horror of modern warfare. By keeping them out the army's strength is greater, fewer men fall ill, smaller personnel is required and much trouble and expense saved."

WATERBURY

Although very little effort has been made in town on the Liberty loan, over \$50,000 has been subscribed. C. B. Adams has recently been appointed chairman of the four-minute men.

While butchering for the Vermont state hospital, Walter Irish found in the stomach of one cow 127 nails from small ones up to the old cut nails, most of them eight-penny nails. The cow seemed to be in good health and was found all right.

Letters received by Allan Perry from Howard Kellogg show that he has arrived in this country. Mr. Kellogg is the son of Rev. and Mrs. F. B. Kellogg, a former pastor of the Congregational church in this place and has been in ambulance work. Mr. Kellogg plans to return for some other part of the service.

Further wool knitted articles sent by the local Red Cross are 38 mufflers, three pairs stockings, 29 pairs wristlets, three sweaters, one helmet, two pairs hospital socks, one trench cap. The Red Cross has also fitted out William Casey, Hale Coneley, Max Fuller and Frank Collins with sweaters, stockings, wristlets and mufflers.

Mrs. C. C. Warren is visiting her son and daughter in New York.

Good news comes from Mr. Ricker, who has reached Florida, and is pleased with the country and his work.

Paul Wallace, son of B. E. Wallace, of the medical corps, has been transferred from Fort Ethan Allen to the Sevier camp at Greenville, S. C. This camp has 3,500 soldiers. Before leaving Burlington he bought a Liberty bond.

Mrs. G. W. Morse has returned from Brandon, where she went as delegate from Marquis de Lafayette chapter, D. A. B., to the state meeting. She was also on the committee of national defense.

A mass meeting will be held Saturday evening in the Methodist Episcopal church, at which the speakers will be Fr. F. M. O'Reilly, chaplain of the 18th cavalry, Fort Ethan Allen, and Hon. Leslie M. Shaw of the Carnegie Trust Co. of New York, a native of Morrisville, formerly secretary of the treasurer, also governor of Iowa. Mr. Shaw spoke in Lyndonville, but is making only a few speeches in the state and Waterbury is particularly fortunate. Senator William P. Dillingham will preside, which assures all of the prominence of the work.

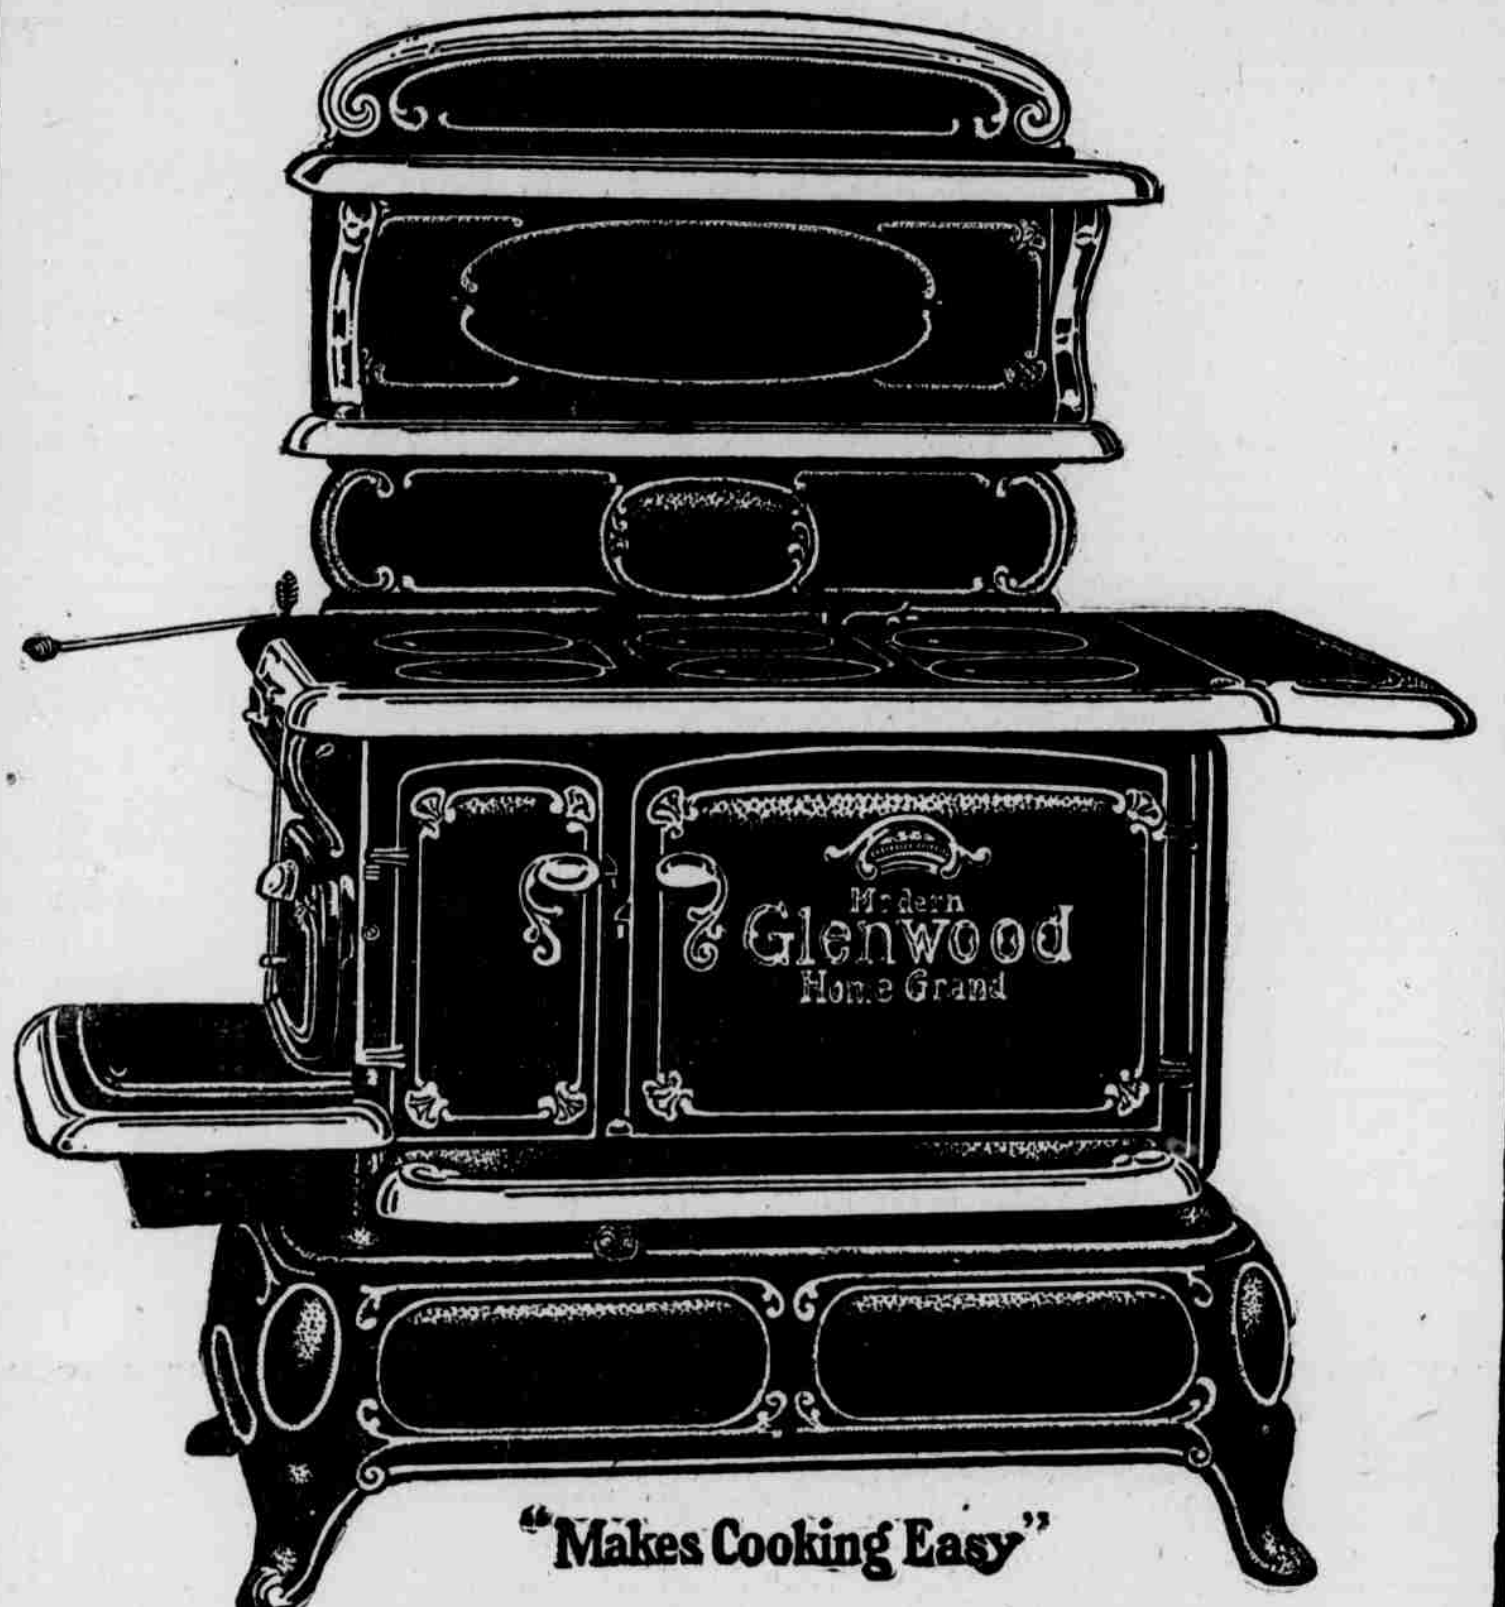

WILLIAMSTOWN

There will be a Halloween social at the Gale schoolhouse in Williamstown, Thursday evening, Nov. 1, at 7 o'clock, the proceeds of which will be devoted to the Red Cross. Entertainment will be given by the children and everyone is cordially invited to be present. Admission, adults 15c, children 10c.

CHIROPRACTIC

1. Slight subluxations at this point will cause so-called headaches, eye diseases, deafness, epilepsy, vertigo, insomnia, wry neck, facial paralysis, locomotor ataxia, etc.
2. A slight subluxation of a vertebra in this part of the spine is the cause of so-called throat trouble, neuralgia, pain in the shoulders and arms, goitre, nervous prostration, la grippe, dizziness, bleeding from nose, disorder of gums, catarrh, etc.
3. The arrow head marked No. 3 locates the part of the spine wherein subluxations will cause so-called bronchitis, felons, pain between the shoulder blades, rheumatism of the arms and shoulders, hay fever, writers' cramp, etc.
4. A vertebral subluxation at this point causes so-called nervousness, heart disease, asthma, pneumonia, tuberculosis, difficult breathing, other lung troubles, etc.
5. Stomach and liver troubles, enlargement of the spleen, pleurisy and a score of other troubles, so-called, are caused by subluxations in this part of the spine, sometimes so light as to remain unnoticed by others except the trained Chiropractor.
6. Here we find the cause of so-called gall stones, dyspepsia of upper bowels, fevers, shingles, hiccough, worms, etc.
7. Bright's disease, diabetes, floating kidney, skin disease, boils, eruptions and other diseases, so-called, are caused by nerves being pinched in the spinal openings at this point.
8. Regulations of such troubles as so-called appendicitis, peritonitis, lumbago, etc., follow Chiropractic adjustments at this point.
9. Why have so-called constipation, rectal troubles, sciatica, etc., when Chiropractic adjustments at this part of the spine will remove the cause?
10. A slight slippage of one or both innominate bones will likewise produce so-called sciatica, together with many "diseases" of pelvis and lower extremities.

HISTORICAL In 1895, D. D. Palmer discovered the basic principle of Chiropractic. Its crude practice followed until 1903, at which time his son, R. J. Palmer, D. C., Ph. C., began to formulate the discovery into a Science, Art and Philosophy, and has since developed it into a well-defined non-therapeutic health system, which accounts for, locates and adjusts the CAUSE of "disease." Six thousand Chiropractors are now scattered over the world; and more than a million persons daily take Chiropractic adjustments. The Palmer School of Chiropractic (Chiropractic Fountain Head), Davenport, Iowa, has a daily clinic of hundreds of patients and a fast-growing student enrollment of 700 persons in actual attendance on classes.

GAGE & GAGE, Chiropractors
